

Attention Units --

There are 4 major bills in the General Assembly addressing our criminal justice reform agenda that require our immediate advocacy support as a State Conference.

- [HB1941](#) - Releasing police footage,
- [HB2291](#) - Civilian oversight boards
- [HB2325](#) - Ombudsman for the Department of Corrections
- [HB2226](#) - Gang reporting

The Political Action Committee will be hosting a rapid-response Criminal Justice Legislative Town Hall tonight at 8pm to go over these bills and actions we need units to take to help ensure passage of these important bills.

We will be joined by state legislators and policy staff, in addition to our political action chairs from across the state.

Please share this email and registration information far and wide to ensure maximum attendance for this important advocacy effort.
